Hannah Howell : A Taste of Fire before purchasing it in order to gauge whether or not it would be worth my time, and all praised A Taste of Fire:

0 of 0 people found the following review helpful. The heart knows love By Jeanette the Great I gave this story a five star rating because of all the twists and turns! The love stories entwined with this story was so intriguing. The secondary love story with the young couple rocked and the impending showdown for the main story was very exciting!!!! I was on my toes. The set up with the different sections of the story made the read engaging. I loved it!!! As a proud Mexican American I love it!!! 0 of 0 people found the following review helpful. A great tom boy story By Steff It doesn't matter what Hannah Howell writes I buy.....I read.....A young (8 or 9) girl's family is killed by some really bad banditos. This other group comes after the bad group for their own reason and come across the 8 year old. The head guy decides to raise her (nobody around). Fast forward; this rancher guy and his 2 brothers have some problems (well at first they think 1 brother is dead from the war and can't find his body) someone is trying to sabotage their property and cause hell on their lives. Enters little girl now a young woman. She and her brothers pledge to pay back this guy to fulfill a promise and the sparks of romance fly between them, but this guy has it in his head he wants ""a lady"" someone to run his house and all those fun things they did in 1870 West, and this young woman will stand beside him not behind him. Lots of interesting sparks and Hannah always has a happy ending. Definitely different than her Scotland historicals(AN AMERICAN historical). 1 of 1 people found the following review helpful. something different By JJI really enjoyed this book. The premise was very unique--in fact I reread the first few chapters several times--it was so much fun. The heroine was great and her character did not change throughout the book. She entered the book as a breath of fresh air, and she kept being that way instead of changing to fit in for the hero. I liked that there was no great misunderstanding that takes half the book to sort out--it was just an interesting story that unfolded very nicely. I looked at this book as a twist on the beauty and the beast concept this time with what may look like a lady on the outside really isn't. The conflict that the hero went through with his acceptance of the heroine was really believable. The side characters were fabulous, I loved the friendships that her "brothers" and the hero's brothers shared with her--especially the kissing (grin). I really want to see a Tomas story and a Cole story

Antonie Ramirez could ride and shoot as well as any man--and better than most. Now, the headstrong beauty had come to Texas to honor her father's last words: find the cattle rancher named Royal Bancroft and repay him for saving their lives long ago. Royal Bancroft didn't know who was behind the outlaws trying to drive him off his land, but he would fight to the death rather than lose it. Yet with his sister and brother kidnapped, he felt defeat run through him like a chill windhellip; until a girl with cornsilk hair and a steady gunhand rode into his life. Antonie was wild, hard,

and hurting inside, and Royal knew from the moment he saw her, that if he tried to tame her, he'd break her spirit. Instead, he would let her ride with him as an equal partner and fight beside him for a future togetherhellip;
